RESIDENTIAL REAL ESTATE ACTIVITY ONLY

April 2017

The employment landscape and wages have both improved over the last few years, allowing for more people to participate in the home-buying process. When the economy is in good working order, as it is now, it creates opportunities in residential real estate, and right now is a potentially lucrative time to sell a home. Houses that show well and are priced correctly have been selling quickly, often at higher prices than asking.

New Listings in the North Shore-Barrington region decreased 8.7 percent to 1,519. Listings Under Contract were up 6.1 percent to 886. Inventory levels fell 7.4 percent to 3,783 units.

Prices continued to gain traction. The Median Sales Price increased 4.9 percent to \$450,000. Market Times were up 7.1 percent to 132 days. Sellers were encouraged as Months Supply of Inventory was down 10.3 percent to 5.8 months.

Although there is a mounting amount of buyer competition during the annual spring market cycle, buyer demand has not abated, nor is it expected to in the immediate future unless something unpredictable occurs. While strong demand is generally considered a good problem to have, it creates an affordability issue for some buyers, especially first-time buyers. And yet, prices will continue to rise amidst strong demand.
