RESIDENTIAL REAL ESTATE ACTIVITY ONLY

February 2022

The U.S. real estate market remains hot ahead of the spring selling season, with existing home sales up 6.7% as of last measure, according to the National Association of REALTORS®. Experts attribute the growth in sales to an uptick in mortgage interest rates, as buyers rushed to lock down their home purchases before rates move higher. Mortgage rates have increased almost a full percentage point since December, with the average 30-year fixed-rate mortgage briefly exceeding 4% in February, the highest level since May 2019.

New Listings in the North Shore-Barrington region decreased 31.5 percent to 716. Listings Under Contract were down 26.0 percent to 618. Inventory levels fell 54.3 percent to 789 units.

Prices continued to gain traction. The Median Sales Price increased 7.8 percent to \$485,250. Market Times were down 34.0 percent to 80 days. Sellers were encouraged as Months Supply of Inventory was down 57.0 percent to 1.0 months.

Inventory was at an all-time low of 860,000 as February began, down 17% from a year ago and equivalent to 1.6 months supply. According to Lawrence Yun, Chief Economist at the National Association of REALTORS®, much of the current housing supply is concentrated at the upper end of the market, where inventory is increasing, while homes priced at the lower end of the market are quickly disappearing, leaving many first-time buyers behind. The shortage of homes is boosting demand even further, and with bidding wars common in many markets, it's no surprise sales prices continue to soar.

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income was 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. **A higher number means greater affordability.**
