## April 2023

U.S. existing-home sales declined 2.4 percent month-over-month as of last measure, according to the National Association of REALTORS® (NAR), reversing February's sales gain of 14.5%. Fluctuations in mortgage interest rates have caused buyers to pullback, with pending sales dropping 5.2% month-over-month. Meanwhile, the median existing-home sales price declined for the second month in a row, falling 0.9% nationally from the same time last year, the largest year-over-year decline since January 2012, according to NAR.

New Listings in the North Shore-Barrington region decreased 35.1 percent to 783. Listings Under Contract were down 26.2 percent to 606. Inventory levels fell 24.5 percent to 843 units.

Prices were fairly stable. The Median Sales Price increased 0.5 percent to \$542,500. Market Times were down 9.6 percent to 45 days. Buyers felt empowered as Months Supply of Inventory was up 9.4 percent to 1.6 months.

Housing inventory remains tight nationwide, with only 980,000 units available for sale heading into April, a 5.4% increase from one year earlier, although the number of homes for sale is down compared to the same period in 2019, prior to the pandemic. The lack of existing inventory continues to impact home sales, and with only 2.6 months' supply of homes at last measure, competition for available properties remains strong, especially in certain price categories, with multiple offers occurring on about a third of properties, according to NAR.
